

Remarks

The subject matter of Claims 29-33 was acknowledged in the outstanding Office Action to be allowable. That subject matter has now been incorporated into the sole-independent claim of the application (Claim 1), from which all other pending claims depend directly or indirectly. Claim 29 has been canceled, and the dependencies of Claims 30-33 have been adjusted accordingly.

The foregoing amendments place the application into condition for allowance, which action is earnestly solicited.

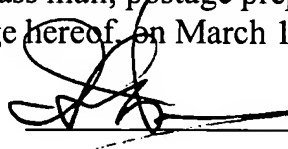

Respectfully submitted,
STUART LAMB
